 Ardena All-Day Foundation Cream, 1.25
 Ardena Feather-Light Foundation Cream, 1.25
 Poudre d'Illusion, 2.20 and 3.30
 Cameo Illusion Powder, 2.20 and 3.30

These are the Elizabeth Arden essentials . . . essentials with which every woman can keep herself lovely, make herself prettier. They represent the cleansing, toning,

lubricating treatments that are her daily beauty routine, the very foundation of good grooming.

If you have never used what Elizabeth Arden has prepared for you, here is a thrilling experience because, for pleasure in use, for delicious fragrance, indescribably delightful texture . . . the FEEL of loveliness and luxury . . . these Essentials are without parallel.

Elizabeth Arden

That Extra Something!

*...You can
spot it every time*

At the ice carnivals you can see plenty of "know how" in skating. There's another star at its best on ice too . . . Coca-Cola.

"Know-how," a finished art in the making . . . these help to give ice-cold Coca-Cola that extra something. So do choicest ingredients and a flavour all its own. You enjoy its welcome refreshment that goes quickly into energy. All these factors lead people to select Coca-Cola as their favourite soft drink. To get the real thing call for ice-cold Coca-Cola.

The energy-giving refreshment of ice-cold Coca-Cola is so welcome after a turn on the ice.

Authorized Bottler of Coca-Cola

Hambly's
BEVERAGES
OSHAWA

It's natural for popular names to acquire friendly abbreviations. That's why you hear Coca-Cola called Coke.

FRED V. SKINNER
President, Oshawa Skating Club

"ICE FROLICS OF 1945"

In presenting Ice Frolics of 1945, the Oshawa Skating Club has put forth a tremendous effort to provide a good entertainment, at prices, which, we hope, will make the public feel that they have not wasted an evening, but have received full value for their money

Under the guiding influence of our club professional, Miss Gwynneth Steeves, the club members, taking part in this evening's performance, have worked very hard for a long period, practising the various intricate routines. The costume committee and conveners of personnel have been a busy lot providing and fitting the three hundred or more costumes required.

An added feature this year is the Oshawa Skating Club Orchestra, an organization of thirty or more musicians under the direction of Mr. John Drewniak. We are proud to say that this orchestra is ninety-eight per cent local talent and they deserve a great deal of credit for their efforts in providing the musical portion of our programme.

We are most fortunate in having the two Senior Canadian Champions for 1945 among our Guest Artists. Miss Barbara Ann Scott, of the Minto Club, Ottawa, holds the title "Lady Figure Skating Champion of Canada", and as we go to press she is in New York City competing for the North American Title. Mr. Nigel Stephens also of the Minto Club, Ottawa, holds the title "Figure Skating Champion of Canada". Miss Nadine Phillips of The Toronto Skating Club is also in New York City competing for the North American Title. Miss Betty Hiscock of The Granite Club, Toronto, Mr. Gerry Blair of The University Skating Club, Toronto, and the inimitable Bill Cross of Detroit, Michigan, round out our Guest Artists. To all of them we extend our best wishes for still further successes and our thanks for being on our programme this year.

Enterprise...

AND THE CHALLENGE OF TOMORROW

CANADA'S pioneers, despite varying origins and backgrounds, had one thing in common—Enterprise—the greatest force for progress ever known.

Enterprise which discovered and explored Canada, developed and utilized her resources, built her cities and populated her domain.

Enterprise which enabled General Motors to become, in peace, producer of over a million civilian cars and trucks—in war, a mighty arsenal forging front-line weapons for a fighting people.

To meet the challenge of tomorrow, the enterprise and initiative of General Motors will create better, safer transportation, link communities more closely together, provide faster, easier distribution of goods, thus helping ensure this nation and her people of a rich and splendid future worthy of a rich and splendid heritage.

Figure Skating in Canada

There's nothing so exhilarating, so exciting, so downright satisfying, as the ability to skate . . . well. We mean, of course . . . fancily! The ability to glide gracefully over the ice is largely a matter of practice and confidence. The envy that surges through your soul when you see others going through their paces at skating carnivals and exhibition meets can be assuaged considerably if you but give yourself a sporting chance. There are forty-seven member clubs of the Canadian Figure Skating Association spotted conveniently, for the most part, across the Dominion. About fifteen thousand enthusiastic members support the activities of these clubs. Several have artificial ice and are open during the summer months for practice and instruction. Most of the larger clubs have competent professional instructors. In every club there are older members who are only too pleased to help the beginner who really wants to learn. There are, too, a number of instruction books available which can be very helpful. Figure skating is a useful social accomplishment. There are a great many skating clubs throughout the United States, Great Britain and the principle countries of the continent. A visitor who is a good skater is always made welcome at these clubs. Indeed, the ability to skate well is an open sesame to many social events. In Canada, during peacetime winters, there are numerous competitive skating meets where club and national trophies are awarded to those who attain the skill and facility that comes from enthusiastic practice. Set your goal high and you may go far in the figure skating world of Canada. At any rate you'll have some grand exercise and a lot of enjoyment.

Taxi Fleets **PROVE** **IT'S A GREAT SYNTHETIC TIRE**

Because taxis are an essential form of transportation . . . and also because they form a ready-made, "mileage-in-a-hurry" test fleet . . . they were among the first to receive the new Synthetic Rubber Tires. Naturally, tire-wise taxi owners tried all kinds.

Now, with more than a year's driving experience behind them, their verdict is in. *These men who judge tires on their performance, prefer Goodyears.*

Many enthusiastically praise the new 'synthetic' Goodyears as at least the equal of those made from natural rubber.

When you are eligible for new tires, get Goodyears . . . and make sure that you, too, get the extra advantages of Goodyear research and experience.

Smoke Means Trouble

A smoking exhaust usually indicates excess engine wear . . . wear that *wastes* both oil and precious gasoline . . . wear that may even put your car on the shelf.

No motor oil can *cure* engine wear. But Red Indian Aviation Motor Oil will help *prevent* it!

So, if you want to keep *your* car on the job, change now to Red Indian Aviation Motor Oil . . . the oil that won't break down under the toughest going . . . that is especially refined to protect the motor at extremes of both heat and cold . . . that will help get more mileage from every gasoline coupon you spend.

SAVE YOUR TIRES

With America practically cut off from the sources of raw rubber and military demands for tires growing every month, it will be a long time before you will be able to buy new tires. To get every last mile out of your present tires observe these fundamental precautions:

- 1—Keep air pressure up to standard and get 25% more mileage.
- 2—Have your tires checked frequently for small cuts and bruises.
- 3—Avoid sudden starts and stops—they grind the tread off your tires.
- 4—Drive slowly—tires wear twice as fast at 60 as they do at 40.
- 5—Park with care—do not scrape sidewall or bump curb.
- 6—Slow down on curves and go into lower gear on steep hills.
- 7—Rotate your tires—rear tires get twice as much wear as front ones.
- 8—Have your tires recapped *before* all the tread is worn off.

By following these suggestions, you will get much more mileage and be able to operate your car a much longer time.

A Big Job or a Slight Adjustment...

Both Receive Our Best

We are specialists in car care — but though we are equipped and staffed to practically rebuild a car, we are equally glad to receive your confidence in correcting the least auto defect. Our chief concern at this time, is to help every essential car on the road —to help every car weather the severe cold and sleet of this time of year — and to make it possible for wartime car owners to make their autos last until new ones can be purchased. Rely on us—when it comes to your car! And you'll be better able to rely on your car for safe driving.

WHITBY, ONT.

... THIS IS THE WAY WE WASH YOUR CLOTHES

Carefully, thoroughly, in pure mild soap suds in the softest of waters, your clothes are given four different sud baths and six separate rinses. They're hygienically clean when you get them, wet, dry, or pressed. You won't have wasted time doing laundry work; you'll have put in full days at war work and home work you cannot relegate to someone else. Yet you'll have clean clothes and bedding for higher efficiency, better health.

Out of War's test tube

...discoveries of great benefit to all mankind

Throughout these critical years the United Nations have waged a fierce and costly war against the most powerful enemies of all time. Emergencies have crowded in upon us. Sacrifices have been demanded and freely made. Life-or-death necessity has spurred us to efforts undreamed of in normal times.

What will be the rewards of our work and sacrifice? A free Canada. A country raised into a high position among the nations. New scientific and social developments that will make this a better world to live in.

Imperial Oil Limited is proud of the part it has been privileged to take in the prosecution of the war. On the home front, on the industrial front, and in battle zones petroleum products have supplied the wheels and wings of victory.

Imperial Oil's research laboratories and engineers have tackled many new and difficult problems. The solution of these problems and the knowledge gained as the result of our war experience point the way to better products which will be offered for your profit and enjoyment in the coming days of peace.

IMPERIAL OIL LIMITED
